Closing The Skills Gap

Letter of Recommendation

Date: 15 December 2010

To: Whom It May Concern

Subject: Wilbat Projects

In 2005 Dormac decided to strategize on all its training initiatives to coincide with the growth of the business. This meant that a training provider needed to be sourced and a relationship formed to ensure the success of all the programmes planned. Wilbat Projects was identified as the training provider that will be forming that relationship and to date Dormac has not regretted this decision. Wilbat Projects commitment and efforts immediately started to reflect on the success of the programmes. Dormac and Wilbat Projects relationship grew stronger over the years and started to work hand in hand with all programmes. The excellent outcome of the training is a direct reflection of the High quality of training delivered by Wilbat Projects. The level of commitment and dedication of Wilbat Projects is undoubtedly of the highest standard. Their commitment to ensuring that every learner is given the best training and attention is remarkable. Dormac success rate on training programmes is solely due to the quality of training delivered by Wilbat Projects. I will not hesitate to recommend Wilbat Projects as an excellent training provider without any hesitation. It is providers like Wilbat projects that really add value to the industry and future of our country. Wilbat Projects really goes the extra mile in closing the skills gap that our country is currently facing.

Dear Sirs/Madam

Re: Reference Letter for Mr. Michael Lortan

Thekwini TVET College, is a tertiary vocational and Group of Training campuses in Durban offering Business, Engineering and short courses.

It is professionally satisfying to collaborate with Wilbat Projects and its Managing Director - Michael Lortan, in rolling out some of our programs, and in preparing learners for the country's Engineering and Manufacturing sector.

Working with Wilbat Projects and Mr. Lortan's specially designed courses, has enabled this campus to produce students with skills, knowledge and competence. Employers have applauded our campus because of the top standards of our graduates in welding and related fields.

Michael Lortan also has cutting edge experience with the latest technologies in both skills development and assessment of learners. Wilbat Projects is accredited with key National Skills Authorities. This significantly accounts for their input, processes, and outputs - which align with the high standards of an institution such as ours.

I recommend Mr. Lortan for leadership posts in all spheres of Skills development and Learnerships.

Regards,

Mr Sipho Mhlongo
Acting Principal
Thekwini TVET College

To whom it may concern

WILBAT PROJECTS 148

This letter serves to confirm that we appointed the above-mentioned company to assist us with the execution and administration of the Artisan Acceleration Training Projects.

With their help and assistance we managed to give 33 previously disadvantaged learners the opportunity to train as Welders/Boilermakers. We also had a higher pass rate due to continual monitoring of the learners during the initial training period.

They are very friendly, resourceful, competent and always helpful and we would recommend their services to any potential new clients.

Kind regards

Subject: letter Of Recommendation

Wilbat Projects has been appointed as the training provider for Dormen Learners. The level of Commitment from Wilbat Projects has always been appreciated by Dormen. The training delivery and monitoring has always put Wilbat projects above the rest. The quality of training by their highly skilled facilitators is outstanding. Dormen will not hesitate to recommend the services to any company that is serious about training and the quality of training. The relationship with your training provider is critical to the success of the learners and this is one of Wilbat Projects strengths. They form a very strong relationship with the learners and organization that they are dealing with. Dormen is proud to recommend Wilbat projects to any organization.

TO WHOM IT MAY CONCERN

WILBAT PROJECTS

Please note that we have used Wilbat Projects as a training provider in the areas of welding, fitting and turning and boilermaking.

We have always found their subject teachers to be knowledgeable in the subjects matter being taught and as an organiser. Wilbat has always been professional and a pleasure to deal with.

Should you have any queries or wish to discuss any matter relating to the above, please do not hesitate to contact me.

Yours faithfully
